The Department of Planning and the Johns Hopkins Center for a Livable Future collaborate to examine the Baltimore food environment through research, analysis and mapping in order to inform the work of the City’s Baltimore Food Policy Initiative (BFPI). Please refer to *Baltimore City’s Food Environment: 2018 Report* for more in-depth information.

**HEALTHY FOOD PRIORITY AREA**

Healthy Food Priority Areas show where four factors related to food access overlap. The four criteria listed below determine if an area is a Healthy Food Priority Area. These areas were previously referred to as “food deserts.”

**KEY FINDINGS**

- The 14th District has a midrange proportion of residents living in a Priority Area with 17%, compared to 23.5% citywide.
- Racial disparities persist with over 6,000 (33%) Black residents live in Priority Areas, compared to only 860 (5%) White residents.
- Children are the most likely age group to live in Priority Areas.

**RESIDENT PERSPECTIVE**

“As a teacher and a former community organizer, I have seen how lack of access to quality food can affect a student’s performance or self-confidence, or an adult’s health and employability.”

2017 Resident Food Equity Advisor, District 14

**PERCENT OF EACH POPULATION GROUP LIVING IN A HEALTHY FOOD PRIORITY AREA**

<table>

**How to read this graph (example):**

Of all the children living in the 14th District, 1,623 (24%) live in a Healthy Food Priority Area.
FOOD RETAIL

Healthy Food Availability Index (HFAI) scores show the quantity and variety of staple food groups and healthy options. Scores range from 0-28.5. HFAI awards stores points based on the presence of a market basket of staple foods and whether healthy options of common foods are available (i.e. whole grain bread).

HFAI SCORE RANGE:

<table>
<thead>
<tr>
<th>Score Range</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>(19.1 - 28.5)</td>
<td>HIGH</td>
</tr>
<tr>
<td>(9.6 - 19)</td>
<td>MEDIUM</td>
</tr>
<tr>
<td>(0 - 9.5)</td>
<td>LOW</td>
</tr>
</tbody>
</table>

The retail food environment includes various store types, and stores within each format can serve as sources of healthy affordable food.

HIGHER HFAI SCORES IN SNAP AND WIC STORES

WIC: Women, Infants and Children

Only 7 small grocery and corner stores (out of 23 small stores in the district) accept WIC and SNAP benefits, yet analysis shows a 41% increase in HFAI score compared to stores of the same size that only have SNAP.

SNAP: Supplemental Nutrition Assistance Program (formerly food stamps)

Stores that accept SNAP have an HFAI score 18% higher than stores of the same size that do not accept nutrition benefits. 34 (out of 35) small grocery, corner, and convenience stores accept SNAP, yet most only carry the minimum stocking requirements.

STORE CATEGORIES

</tr>
</thead>
<tbody>
<tr>
<td>SMALL GROCERY AND CORNER STORES</td>
<td></td>
</tr>
<tr>
<td>23</td>
<td>10.9</td>
</tr>
</tbody>
</table>

There are 23 stores in this category. The average HFAI score for these stores is 10.9, which is above citywide average.

CONVENIENCE STORES

<table>
<thead>
<tr>
<th>6</th>
<th>9.1</th>
</tr>
</thead>
</table>

Chain Convenience: The 6 stores have an average HFAI score of 9.1, indicating some may carry healthy food, but not significant amounts.

Discount: 3 discount stores sell a variety of non-perishable and some perishable foods, yet overall HFAI scores are low. All 3 accept SNAP but none WIC, which may mean they are not accessible to all shoppers, especially those with children.

Pharmacy: Overall, pharmacies have an average score of 9.3 and have the potential to carry more staple foods, perhaps by connecting specific healthy foods to medical needs.

SUPERMARKETS

| 4      | 28.5          |

Overall, supermarkets provide the widest variety of healthy staple foods. The 4 supermarkets are run by 3 different operators, and while similar in basic stocking, may vary significantly in features not scored or measured by this analysis, such as quality or affordability.
SUMMER MEALS
24% of children in the district live in Priority Areas. The 14th District served over 65,000 summer meals across 26 sites in 2016.

AFTER SCHOOL MEALS
17 after school meals sites serve the 14th District, out of 268 sites citywide.

FOOD PANTRIES AND MEAL SITES
There are 19 sites that are served by the Maryland Food Bank, out of 425 sites citywide.

SENIOR MEALS
There are 2 Eating Together sites serving 35 seniors. 18% of seniors in the district live in Priority Areas.

URBAN AGRICULTURE
FARMERS MARKETS
2 farmers markets serve the district. 1 market accepts SNAP and some vendors at both accept WIC benefits.

URBAN FARMS
Hillen Homestead and the Clifton Park site for Real Food Farm are in the district.

COMMUNITY GARDENS
The 8 community gardens spread throughout the district may provide opportunities for household-level food access.

HEALTHY FOOD ENVIRONMENT STRATEGY
Food environment mapping and analysis inform and guide BFPI’s work. The 2018 food environment analysis led BFPI to update its guiding Healthy Food Environment Strategy. The following citywide goals have applications at the state, city, and neighborhood levels. These maps and analyses are used to inform, create, and evaluate food policies. Together, BFPI agencies implement the following strategies:

- Support resident-driven processes to guide equitable food policy, programs and resources
- Improve small grocery, corner, convenience stores
- Retain and attract supermarkets
- Increase the ability of the public markets to anchor the healthy food environment
- Implement supply chain solutions that support healthy food distribution and small businesses
- Maximize the impact of federal nutrition assistance and meal programs
- Support urban agriculture, emphasizing historically disenfranchised populations and geographies
- Address transportation gaps that impact food access

FOOD ENVIRONMENT REPORT

FOOTNOTES:
1. Chart displays 185% of Federal Poverty Level by count of residents adjusted for household size. Priority Area poverty calculations are based on household Median Income.
2. *Per US Census categories, “Other” is a combination of American Indian, other, Hawaiian/Pacific Islander, and “Two or More”.
   **Hispanic is an ethnic classification that includes all races. There may be overlap between Hispanic and other racial categories.
3. Percent increases are based on citywide averages as data by district is limited.
